Passing Score: 80%

**Question 1**

✓ Correct

Which account or group object on the access control list should NOT have been assigned permissions on the share?

- ☒ A Users ✓ Correct
- ☐ B Domain Admins
- ☐ C LocalAdmin
- ☐ D CREATOR OWNER

Task: check if the Users group has access to '\\10.1.16.1\TOOLS' share

✓ Correct

Question 2

✓ Correct

File access controls are classed as preventive in terms of functionality. What category of security control are file permissions?

- ☒ A Technical ✓ Correct
- ☐ B Managerial
- ☐ C Operational
- ☐ D Physical

Task: confirm if the C:\LABFILES\empty directory was deleted

✓ Correct

Question 3

✓ Correct

The results of the find operation indicate what?

- ☐ A Jamie is an administrator
- ☒ B Folder deletion is not being audited ✓ Correct
- ☐ C Users are unable to access empty folders
- ☐ D User activity is being tracked

Task: confirm if the C:\LABFILES\pcaps directory was deleted and check for an event log record with an event ID of 4663 and an Object Name of C:\LABFILES ✓

Question 4

✓ Correct

What is the purpose of a detective control?

- ☐ A Deny access to an object
- ☐ B Notify subjects about system policies
- ☐ C Inform users of the proper steps to perform an activity
- ☒ D Create a record of events and activities ✓ Correct

Task: confirm the existence of LegalNoticeCaption and LegalNoticeText registry keys with non-zero values \$result = \$False

✓ Correct

Question 5

✓ Correct

What is the goal of directive controls?

- ☐ A Defense
- ☒ B Compliance ✓ Correct
- ☐ C Prohibition
- ☐ D Tracking

Question 6

✓ Correct

What are the dual purposes of corrective controls? (Select two)

- ☒ A Address an unwanted or less secure state or event ✓ Correct
- ☐ B Record evidence of user and event activities
- ☒ C Return the system to a normal and generally secure condition ✓ Correct
- ☐ D Provide guidance on proper user behavior

Task: confirm if the notes.txt file exists and contains "This is important"

✓ Correct

Task: confirm if C:\Users\jaime\hash.txt exists and is not empty

✓ Correct

Task: confirm if the calchash.ps1 file exists and contains the "Get-FileHash" command

✓ Correct

Task: confirm if the check.ps1 file exists and contains the "Get-Content" cmdlet

✓ Correct

Question 7

✓ Correct

What is the typical means (which was used in this exercise) to detect changes in a file?

- ☐ A encryption
- ☐ B authentication
- ☐ C authorization
- ☒ D hashing ✓ Correct

Question 8

✓ Correct

What is the primary purpose of preventive controls?

- ☒ A Stop unwanted activity from succeeding ✓ Correct
- ☐ B Record information about activities
- ☐ C Give instructions
- ☐ D Restore a system back to preferred condition
- ☐ E Persuade a perpetrator to go elsewhere
- ☐ F Compensate for a failed control

Question 9

✓ Correct

What is the primary purpose of detective controls?

- ☐ A Stop unwanted activity from succeeding
- ☒ B Record information about activities ✓ Correct
- ☐ C Give instructions
- ☐ D Restore a system back to preferred condition
- ☐ E Persuade a perpetrator to go elsewhere
- ☐ F Compensate for a failed control

Question 10

✓ Correct

What is the primary purpose of directive controls?

- ☐ A Stop unwanted activity from succeeding
- ☐ B Record information about activities
- ☒ C Give instructions ✓ Correct
- ☐ D Restore a system back to preferred condition
- ☐ E Persuade a perpetrator to go elsewhere
- ☐ F Compensate for a failed control

Question 11

✓ Correct

What is the primary purpose of corrective controls?

- ☐ A Stop unwanted activity from succeeding
- ☐ B Record information about activities
- ☐ C Give instructions
- ☒ D Restore a system back to preferred condition ✓ Correct
- ☐ E Persuade a perpetrator to go elsewhere
- ☐ F Compensate for a failed control

Question 12

✗ Incorrect

What is the purpose of the dot and slash in front of the filenames in the PowerShell scripts and when executing PowerShell scripts?

- ☐ A Allow for administrator execution
- ☒ B Reference the current working directory ✓ Correct
- ☐ C To set the security content of the process
